

OCEAN GLASS

GLASS PACKAGING PRODUCT CATALOG

Reference collection for global B2B sourcing, custom development and export delivery.

2026 EDITION

A catalog built for project qualification

The products in this edition are starting points for a technical conversation. Final geometry, tolerances, color, closure, decoration, packing and testing are confirmed against the application and target market before a formal purchase order.

01

Select a route

Choose an existing mold for speed, adapt a stock platform, or begin a custom-mold feasibility review.

02

Define the interface

Confirm neck finish, closure, pump or dropper, liner, filling line and product compatibility.

03

Approve the reference

Freeze the drawing, color and decoration; approve a reference sample before scale production.

04

Lock quality and packing

Agree inspection points, sampling, carton or pallet protection, marks and container loading.

CORE APPLICATIONS

Wine & Spirits	Beverage	Cosmetics
Pharmaceutical	Food	Home Care

Product selection 1-4

Use the product code in your inquiry. Dimensional and performance values shown on the website remain project references until confirmed by drawing and sample.

OG-WINE-001

Heritage Spirit Bottle

500 ml | MOQ 10,000 pcs

Premium flint glass

Printing, decal, coating, custom closure

OG-WINE-002

Bordeaux Wine Bottle

750 ml | MOQ 5,000 pcs

Soda-lime glass

Antique green, olive, amber or flint

OG-BEVERAGE-001

Cold-fill Beverage Bottle

300 ml | MOQ 10,000 pcs

Premium flint glass

Juice, tea and functional drinks

OG-BEVERAGE-002

Sparkling Beverage Bottle

330 ml | MOQ 20,000 pcs

Amber soda-lime glass

Crown finish; project pressure review

Product selection 5-8

Use the product code in your inquiry. Dimensional and performance values shown on the website remain project references until confirmed by drawing and sample.

OG-BEVERAGE-003

Amber Beer Bottle

330 ml | MOQ 20,000 pcs

Amber soda-lime glass

Beer, soda and fermented beverages

OG-COSMETICS-001

Architectural Perfume Bottle

50 ml | MOQ 5,000 pcs

Premium flint glass

Coating, printing, foil and pump matching

OG-COSMETICS-002

Skincare Serum Bottle

30 ml | MOQ 5,000 pcs

Amber glass

Dropper or treatment-pump development

OG-COSMETICS-003

Amber Serum Dropper Bottle

30 ml | MOQ 5,000 pcs

Amber soda-lime glass

Formula and filling-line compatibility review

Product selection 9-12

Use the product code in your inquiry. Dimensional and performance values shown on the website remain project references until confirmed by drawing and sample.

OG-PHARMA-001

Pharmaceutical Wide-mouth Bottle

100 ml | MOQ 20,000 pcs
Borosilicate glass
Project-specific testing documents

OG-FOOD-001

Pantry Glass Jar

500 ml | MOQ 10,000 pcs
Clear soda-lime glass
Honey, preserves, sauces and pickles

OG-FOOD-002

Twist-off Food Jar

500 ml | MOQ 10,000 pcs
Clear soda-lime glass
Twist-off closure and filling-line review

OG-DAILY-001

Home-care Pump Bottle

500 ml | MOQ 5,000 pcs
Premium flint glass
Pump matching, coating and printing

Six approval gates from concept to production

A disciplined approval sequence protects both schedule and tooling investment. Each gate should identify the drawing or sample version, decision owner and approval date.

01

Requirement and feasibility

Application, fill process, volume, market, timing and target cost.

02

Drawing freeze

Geometry, capacity, neck finish, weight target and critical tolerances.

03

Mold approval

Cavity plan, trial method, change boundary and ownership terms.

04

First sample review

Dimensions, capacity, appearance, closure fit and line compatibility.

05

Decoration and components

Color, coating, print registration, closure and accessory matching.

06

Pre-production reference

Signed sample, inspection plan, packing specification and release.

Information for a formal quotation

Sending the following information at the start helps the supplier return a comparable, technically useful quotation.

Project	Application, target market, target launch date
Bottle	Product code or drawing, capacity, glass color, annual volume
Interface	Neck finish, closure, liner, pump or dropper requirements
Filling	Product formula category, filling temperature and line details
Decoration	Artwork area, coating, frosting, printing, decal, foil or embossing
Quality	Critical dimensions, testing standards and inspection expectations
Packing	Carton or pallet, labels, destination and container plan
Commercial	Sample quantity, Incoterm, destination port, payment preference

IMPORTANT PROJECT NOTE

Catalog images and values are reference information, not a certificate, test report or production commitment. Final specifications, lead time, performance, packing and commercial terms are subject to the approved quotation, drawing, samples and purchase order.
